12. Key Qualifications (relevant to the programme):

* We are three attendings and two psychologists in Hacettepe University Adolescent Medicine Clinic and we have 6500-7500 adolescent patients yearly in our clinic. Since Hacettepe University Children’s Hospital is the major referral center of my country we have patients from all over the country.

* I also have responsibilities of the inpatient services of our children’s hospital once a year.

* I have academic responsibilities to give general pediatrics and adolescent medicine, adolescence gynecology and adolescent sport medicine lectures to medical students, and adolescent medicine lectures to

pediatric residents.

* I participate in clinical researches in Adolescent Medicine, Adolescent Gynecology and Adolescent Sport Medicine and my publications are enclosed.

* My Clinic works in collaboration with the Ministry of Health of Turkish Republic for Adolescent Health projects. I have active roles in these projects with UNICEF and UNFPA.

* I am working as a consultant in 41 youth centers across the country (38 in primary health care centers and 3 second steps health care centers), substance abuse centers, saving adapted child centers, detention centers, medicosocial centers and schools.

*I run the Adolescent Medicine Post Doctorate Training Program. We have 10 Adolescent Post Doctor Students now. (Adolescent Medicine is currently not a certified sub-specialty by the Ministry of Health in Turkey. To compensate for the lack of training opportunities in the field, to meet the needs of adolescents and to increase research and strengthen scientific knowledge in the area of adolescent medicine, a doctorate program was established in 2004 by the Division of Adolescent Medicine under the Institute of Child Health at Hacettepe University in Ankara)
